Signature Architectural Tour to Maggie’s Cancer Caring Centre

Designed by Pritzker Prize winner Frank Gehry and his team with Ronald Lu & Partners as the Executive Architect, Maggie’s Hong Kong is the first completed Maggie’s Centre outside of the UK. Named after Maggie Keswick Jencks and co-founded with her husband Charles Jencks, Maggie’s Centres offer a fresh approach to both architecture and health; the purpose-designed healing spaces create a peaceful but uplifting space for cancer patients and their families and friends.

Initially a pre-fab structure erected in the parking area of Tuen Mun Hospital, Maggie’s Hong Kong emerged into reality and opened its door in 2013. The garden surrounding the Centre, landscaped by Lily Jencks, daughter of Maggie Keswick Jencks, further enhances the environment to make people using the Centre feel special and cared for.

As part of the Maggie’s Cancer Caring Centre - Jockey Club Emotional & Psychosocial Support Programme, this tour will look into the relationship between architecture and health, and how the outdoor and indoor spaces of Maggie’s Hong Kong interact with each other.
